By Car

For Cadventure please use the North Gate

This entrance is off the A433 (Tetbury / Cirencester Road) at Jackamts Bottom and is for all members of the public visiting Cadventure on the north side of the airfield.

Please note that Kemble Airport is signposted when travelling from Cirencester but this turning is NOT marked when approaching from Tetbury. Therefore please take the next turning to the right after the signpost to Jackamts Bottom Farm. If you reach the turning to Kemble Station you have gone too far.

Whenever the security gate is shut visitors without a pass should press the Control Tower button. You will be asked questions relative to the security status before the gate is released.

Cadventure is the second building on the left as you enter the North Gate.

By Train

There is a good train service from London Paddington via Swindon and from Birmingham via Cheltenham to Kemble station. From the front of the station you can a short taxi ride to our offices or we can collect you. Please go to www.thetrainline.com for more details.
