

## BIM Essentials, with AECOsim Building Designer

AECOsim Building Designer can transform your existing workflow into one that sees maximum productivity gain to deliver BIM deliverables. To ensure the greatest benefits are achieved in the shortest possible timeframe, Cadventure in conjunction with Bentley offers the BIM Essentials program.

The *BIM Essentials* program will compress BIM adoption into a shorter timeframe, realising a faster return on investment, optimising workflows and maximising productivity increases. The Production Gain Differential between your current workflow and your new will be noticeable in a short timeframe.

### BIM 2016 Ready in one week:

#### Rapid implementation and Productive users

Cadventure will provide the following services as part of this programme:

- **Software and UK Workspace implementation (1 day):** to be conducted onsite, Cadventure consultants will install AECOsim and a proven UK workspace, libraries and datasets across all licenses purchased to be **BIM 2016 Ready**.
- **Training program (3 days):** to be conducted onsite or at Cadventure London training centre. The program is based on training with one of the four AECOsim disciplines; Architectural, Structural, Mechanical, or Electrical. It is assumed that users will have some basic CAD knowledge as an entry point onto training program, then to develop the skills to produce BIM deliverables. Additional training may be necessary depending on user abilities.
- **Post-training coaching(1 day)** to allow for remote support by Cadventure consultant during the first 2 weeks of actual in-practice modeling and deliverables; this coaching is limited to a total of 8 hours and can be obtained on request in units of 1 hour.

#### General Project Assumptions

- For onsite training, reasonable on-site facilities (meeting room, computers, projector, etc.) will be provided to the Cadventure consultants for all meetings and/or data reviews. Cadventure's mobile training environment can be utilised on request.
- The training class size is limited to a maximum of 8 delegates
- The training and coaching have been developed to work with one discipline within AECOsim. Other discipline training can be purchased separately.

Cadventure will provide standard electronic course material in English for the training classes only.

#### Delivery Schedule

The schedule will be finalised to reflect specific dates and times that are mutually acceptable upon final acceptance of the quotation and the issuance of a purchase order acceptable to Bentley.
