

Advanced MicroStation CONNECT Edition

Objective:

This course is intended for experienced users of MicroStation. It explores the more advanced features of MicroStation CONNECT Edition.

Course Length:

One day – 9.30 to 4.30 pm

Main Topics:

- Introduction to Parametric Modelling
 - Parametrically enabled tools
 - 2D & 3D Constraints, Geometric Constraints & Dimensional Constraints
 - Variables
 - Variations
 - Features
- Parametric Cells
 - Creating Parametric Cells
 - Placing & Updating Parametric Cells
 - Extracting Parametric Cells to a dgn file
- Feature Modelling
 - Parametric Solids & Surfaces
 - Feature tools
 - Manipulating & Modifying features
